Engineering SPARK is a cybersecurity club that hosts CTF events, cybersecurity, web development and ai workshops, etc...

EXPERIENCE

1st PLACE HACKATHON IEEE

Faculty of Sciences of Tunis

Mar 2022, manar 1, Tunis

The goal of this hackathon was to build a real estate renting management solution in 24 hours. I worked on the front-end part where I managed to create multiple pages and a dashboard with a modern and user-friendly UI using Chakra-UI.

2nd PLACE INFO+ HACKATHON

Faculty of Sciences of Tunis

Feb 2022, manar 1, Tunis

The goal of this hackathon was to build a web-developers freelancing platform where its easy for clients and freelancers to find the right match on the local scale. I was responsible for the front-end part where I created multiple pages and implemented a real-time chat feature using socket.io.
